CORRIDOR CONVERSATIONS

Annual AHC Summit Sponsorship Opportunities Now Available!

We are excited to welcome you back in person at the 2022 Animal Health Summit on August 29-30 in Kansas City. This two-day event will bring you networking, 1:1 business partnering, industry thought leaders, panels, and emerging company presentations.

Don't miss your opportunity to be a part of bringing innovation alive in animal health by becoming a sponsor of The Summit. With a wide variety of conference sponsorship opportunities, your organization will benefit from greater visibility across various digital platforms, the conference website, and during the event. Click here - for a full list of sponsorship benefits.

2022 Animal Health Summit sponsorship opportunities are limited!

Send Us Your Pictures!

May is National Pet Month, which aims to promote responsible pet ownership and make people aware of the benefits of pets for people, and people for pets! It also raises awareness of the role, value, and contribution to society of working companion animals.

This is where you come in. The Animal Health Corridor wants to know why your pet is so important to you! We encourage you to **share a photo of your pet** along with their name and fun fact about them. These submissions will be featured on our **social media accounts** throughout May!

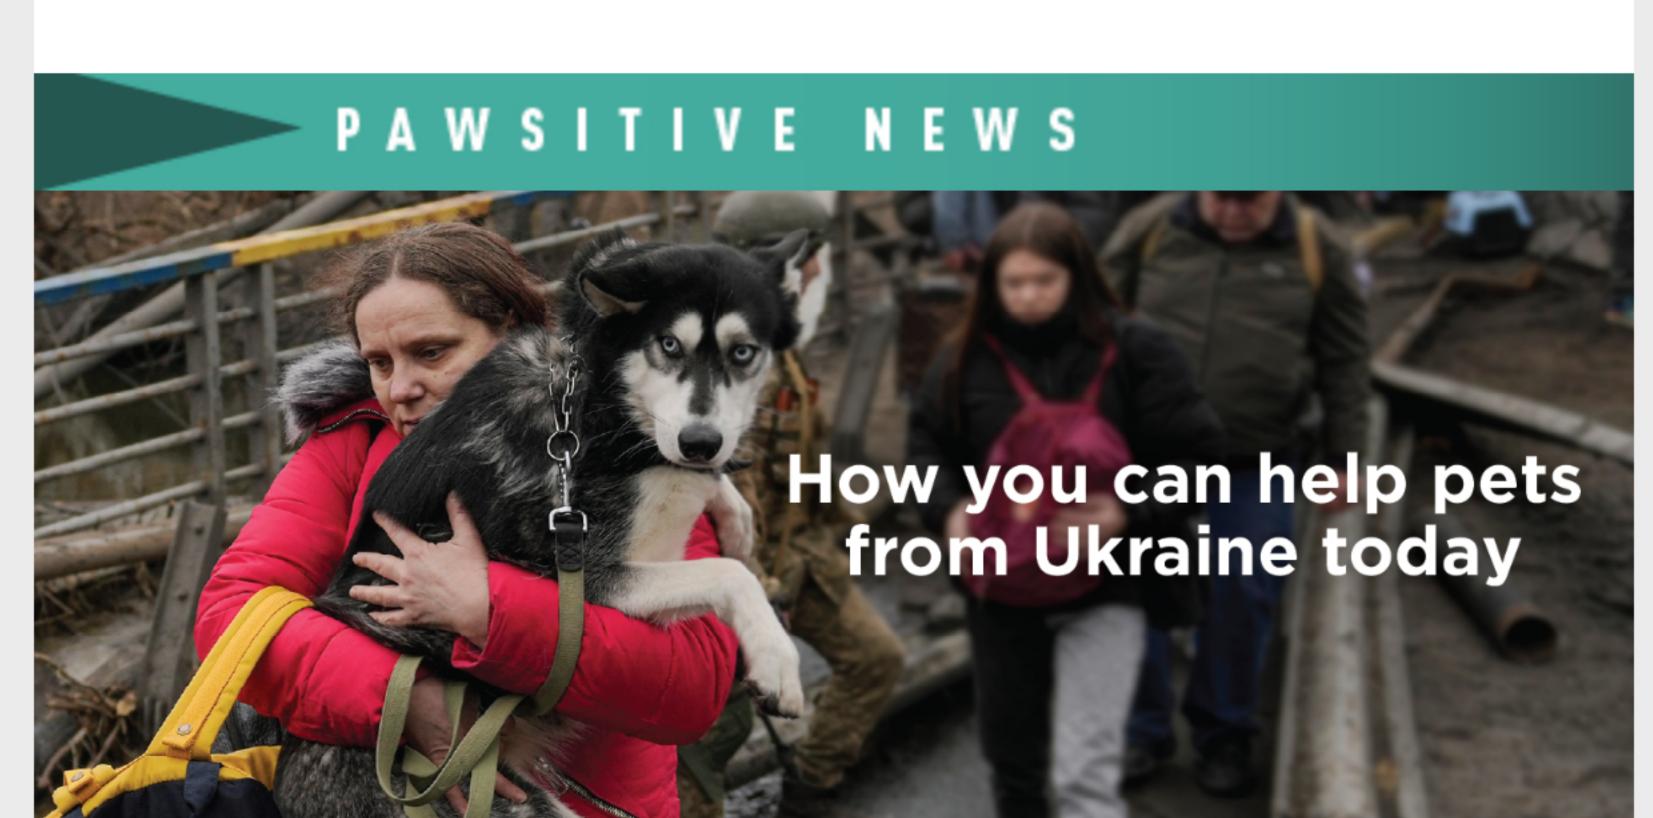

MEMBER HIGHLIGHT Norbrook

Norbrook nearly doubles the capacity of KC-area warehouse

Norbrook® North American, located in Lenexa, Kansas, is nearly doubling the capacity of its warehouse due to recent double-digit and projected growth in the company's animal health business. The facility will increase to 60,000 square feet of storage and distribution space for its food animal and companion animal health products sold in the United States.

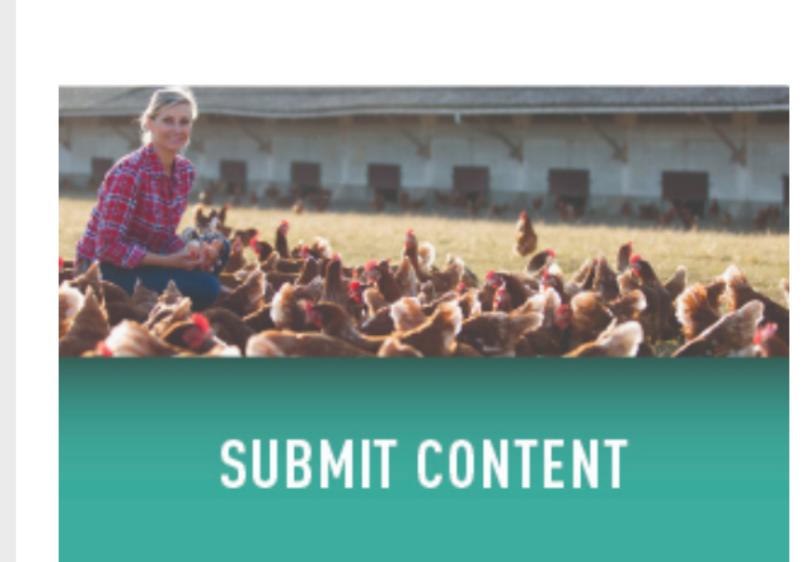

Learn more about their growth here.

Dr. Marty Becker Helps Displaced Ukrainian Pets

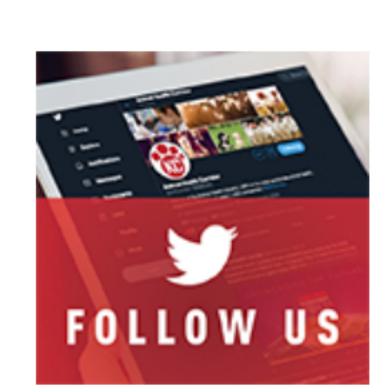

Dr. Marty Becker is visiting Ukraine in April to set up free veterinary care for pets fleeing the war. He is partnering with local organizations to understand what the most urgent needs are and get to work addressing them. He is also working with the Romanian Veterinary Medical Association to share Fear Free approaches with Romanian veterinary students who are caring for pets crossing the border. This will help reduce stress in the animals and also reduce the risk of being bit by a terrified pet.

For a more in-depth look at his day-to-day experience, check out his blog!
