## 3 Things You Need to Know

### National Bio and Agro-Defense Facility Celebrates Ribbon Cutting

May 24, the U.S. Department of Agriculture (USDA) and Department of Homeland Security (DHS) Science and Technology Directorate held a ribbon cutting ceremony for the new National Bio and Agro-Defense Facility (NBAF) in Manhattan, Kansas. This is the first facility of its kind in the U.S. and will allow scientists to study and diagnose critical animal diseases within the highest level of biocontainment and safety protocols in place.

### We Can Always Accomplish More, Together

Advancements in our industry come from many places. Often, the larger the achievement, the more people and organizations involved. Fourteen years in the making, the National Bio and Agro-Defense Facility (NBAF) is one shining example.
