

Welcome to The Connector. Capturing the pulse of the Animal Health Industry.

3 Things You Need to Know

New Airport Means New Opportunities

Kansas City's brand-new terminal took flight this month and the community is thrilled. In addition to a streamlined structure, gorgeous art installations and "distinctly KC" food and shopping, the new airport emphasizes the Kansas City area as a true player in industry and commerce.

Three Easy Ways To Support Your Female Colleagues

International Women's Day is this month, making it a great time to acknowledge the profound impact women have had on our industry. Animal Health simply wouldn't be where it is today without the tireless efforts of the women in the field. It's important that we all support the women who make such a difference to the landscape of our industry. And we can start in a few simple ways.
