

ARGENTA LIMITED ANNOUNCES KEY PERSONNEL APPOINTMENTS

Argenta is pleased to announce two key senior level appointments at the Argenta Research LLC facility in Lawrence, KS. Dr. Benjamin Isaacs and Ms. Amy Wilson have joined the company as of July 2, 2018. With these two key appointments at the Kansas laboratory, Argenta will be ramping up the services provided to customers at this location and the technical support provided to AML Riverside, Argenta's manufacturing facility in Fort Dodge, IA. Dr. Isaacs and Ms. Wilson will also work closely with the members of the Argenta Pharmaceutical Sciences team in Auckland, NZ.

Dr. Benjamin Isaacs Appointed Head of Pharmaceutical Sciences (US)

Dr. Isaacs joins Argenta as the new Head of Pharmaceutical Sciences (US). Dr. Isaacs has extensive innovative biopharma product/device formulation & dosage form development and quality aseptic manufacturing experience. In addition, he also has broad corporate program management/product development and business process improvement experience with both biologicals and active pharmaceutical ingredients for various regulatory evaluations and attendant filings.

Dr. Isaacs was most recently Principal at Acorn2Oak Business Consulting in Gainesville, FL and was Principal Investigator at Ology Bioservices in Alachua, FL for almost five years. Prior to that he was President and CEO at Formatech Inc. in Andover, MA for almost 13 years.

Dr. Isaacs received his PhD in Chemistry from the University of Oklahoma in Norman, OK and was a PostDoctoral Research Fellow (Holland Labs) at the American Red Cross in Rockville, MD.

Ms. Amy Wilson Appointed Director, Product Development Sciences

Ms. Wilson joins Argenta as Director, Product Development Sciences. Ms. Wilson is an experienced animal health product developer having spent 20 years at Boehringer Ingelheim Vetmedica, Inc. in St. Joseph, MO. She is experienced in CMC process development, skilled in the art of assay development, accomplished in validation of formulation processes for multiple formulations, innovative in assay test method & process transfers and expert in project planning.

Ms. Wilson was most recently Business Development Manager Boehringer Ingelheim after holding positions of increased responsibility in the Regulatory Affairs and the Research Development areas.

Ms. Wilson received a Bachelor of Science in Natural Science, Emphasis in Chemistry from Missouri Western State University in Saint Joseph, MO.

About Argenta

Founded in August 2006, Argenta is the world's only combined contract research organization (CRO) and contract manufacturing organization (CMO) specializing exclusively in animal health. In 2008, Argenta acquired New Jersey based clinical contract research provider, AlcheraBio LLC, and in 2011 it opened Argenta Research LLC, a drug product research laboratory in Lawrence, Kansas City. In the past two years, Argenta has continued its acquisitions with the purchase of a facility in Fort Dodge, Iowa, now operating as AML Riverside and another in Dundee, Scotland operating as Argenta Dundee Limited. Our 400+ global team develops and exports products and services to over 40 countries.
